General Guidelines for Presentation

- Slides should not be too heavy with content. Better to create point wise.

- If you require more than one slide for any point, right click on that point slide then select duplicate slide and modify the duplicated slide.

- Diagrams must be aligned at centre and clearly visible with caption.

- All the mentioned fonts, font size, title content, etc should not change and strictly as per the given format and guidelines.

INTRODUCTION

TUTORSURF

- An E-learning website providing efficient teaching with one to one interaction between the student and the teacher with affordable learning plans.

- TutorSurf website focuses on both aspects, For a student and for the tutor. Easy to to link with the features of the website as a student or a tutor.

- A web based learning method of providing multiple subjects, courses all by the private preferences by the particular student.

2. Objectives

1. To Enhance the quality of learning and teaching

2. To provide 1-1 interaction between student and the tutor online

3. To Improve the efficiency and effectiveness between the student and the teacher

4. Our website offers affordable plans for learning based on the user's needs.

5. To Improve user-accessibility and time flexibility to engage learners in the learning process

3. Scope

1. Students can improve academic performance with one on one attention.

2. Students can improve work and study habits.

3. To signify the advantanges of E-Learning and why it important for the future.

4. To bring learning to people instead of people to learning.

4. Feature /Functionality

I.   Feature 1 : Tailored support according to the child's needs

    I.   One of the top benefits of getting private tuition is the tailored support according to your child's needs. We make sure that our tutoring support is provided according to the needs of the child.

II. Feature 2 : Personalized Lessons

    I.   One of the most significant advantages of private tuition is that each lesson can be easily personalized and adapted according to the need of every student and their learning style.

Student/Parents User
